Appl. No. 10/824,995

Response to Office Action of 11/12/2004

Atty. Dkt. No. GO30-002

Amendments to the Claims:

Claim 1 (currently amended): A generally horizontal screw press for removing

excess fluid from material; comprising:

a generally tubular body having a meshed surface; said body having a material inlet

provided near a proximate end thereof;

an endless screw mounted in said tubular body; said endless screw including a

generally conical shaft and a helicoidal blade mounted to said shaft;

a rear excess fluid outlet provided in said proximate end of said tubular body, said

rear excess fluid outlet including a toroidal screen; and

a proximate end of said endless screw including at least one scraper blade

assembly that is so mounted thereto as to be in near-contact with said toroidal screen;

whereby rotation of said endless screw induces a scraping cleaning action of said at

least one blade assembly against said toroidal screen to thereby prevent said screen from

becoming clogged.

Claim 2 (original): A screw press as recited in claim 1, wherein said rear excess

fluid outlet includes a meshed surface to allow the excess fluid to egress the screw press.

Claim 3 (original): A screw press as recited in claim 1, wherein said rear excess

fluid outlet is toroidal.

2

Appl. No. 10/824,995

Response to Office Action of 11/12/2004

Atty. Dkt. No. GO30-002

Claim 4 (currently amended):

A screw press as recited in claim 1, wherein said

at least one scraper blade assembly includes a support mounted to the endless screw and

a scraper blade movably mounted to said support.

Claim 5 (currently amended):

A screw press as recited in claim 1, wherein said

at least one scraper blade assembly includes three scraper blade assemblies.

Claims 6-23 (canceled).
